Metal Markets.

New York, Dec. 30.-The metal mar-

Money, Silver, Etc.

The Bank Statement. New York, Dec. 30.—The statement of the clearing house banks for the five days this week shows that the banks

held a surplus over the legal reserve re-

Loans, \$1,001,025,000; decrease, \$5,082,100. Deposits, \$977,651,300; decrease, \$7,377,100. Circulation, \$53,096,000; increase, \$46,300. Legal tenders, \$75,699,800; increase, \$1,-496,100.

ems, though such changes were greater in loans, specie and deposits than were indicated in the week of Dec. 23. The net cash loss last week was \$1,711,100. The

preliminary estimates generally showed more or less important decreases; the movements of money were, however, of such a character as to make it quite difficult to trace them with any degree

of accuracy. Loans were contracted by \$5,082,100. Deposits decreased \$7,377,100, an amount greater by \$583,900 than the reduc-

tion in loans plus the net decrease in cash. The required reserve was de-

amount greater by \$555,900 than the reduction in loans plus the net decrease in cash. The required reserve was decreased \$1,844,275, deducting from which the net loss in cash left \$133,175 as the increase in surplus reserve to \$4,292,575. Computed upon the basis of deposits, less those of \$8,429,900 public funds, the surplus is \$6,400,650. The daily average of bank clearings for the five days was \$421,000,000, against \$275,000,000 in the previous week, reflecting largely the shifting of loans incident to the monetary tension which prevailed during the week. Clearings reported on Saturday, due to Friday's business, were \$486,440,248. It may be noted that the loans reported in last week's statement were \$23,387,700 in excess of deposits. In comparisons of loans by individual banks, seven institutions reduced this item by \$4,200,000 net. Eight banks gained \$4,400,000 net cash.

Sheep—Recelpts, 2.000 market strong; sheep, \$3.40@5.95; yearlings, \$5.60@6.50; lambs, \$5.75@7.90.

GRAIN AND PROVISIONS.

Chicago, Dec. 30.-With the exception of

the first few minutes of trading the wheat market was strong for the entire day. At the opening local bears sold freely, partly as a result of lower prices

at Liverpool and also because of the continued heavy movement of wheat in the northwest. Bull leaders, however, gave the market good support and prices soon made a substantial advance. Later the buying became more general because of

bonds steady.

\$1.844.275.

New York, Dec. 30.—The last day of the year proved a very active one on the stock exchange but the tone of the rarket was considerably unsettled. There was a disposition to realize the profits the remaining uncertainties over the money market. The absorptive power of the market, however, proved good and the realizing was effected without material damage to prices. There were some decidedly feverish movements in the closing dealings, when hasty throwing over of holdings caused a number of rapid declines, followed in some cases by rapid recoveries. The range in Amalgamated.

Copper and Anaconda was especially wide and rapid. The immediate outlook in the money market remains much obscured. The greatest reliance is placed for early relief from stringency on the disbursement of the dividends and interest due, for the payment of which great funds have been accumulated.

The severity of this week's stringency is attributed principally to this preparation. It is believed also that the accumulation of resources by the trust companies for the purpose of "window dressing" for the Jan. 1 statement of their condition, which is required of those institutions, has played an important part in the construction of the week's money supply, and prompt relief is hoped for from the process of the construction of the week's money supply, and prompt relief is hoped for from the process of the purpose of the week's money supply, and prompt relief is hoped for from the process of the purpose of the week's money supply, and prompt relief is hoped for from the process of the process of the process of the purpose of the process of the pr part in the construction of the week's money supply, and prompt relief is hoped for from the release of funds accumulated for this purpose. On the other hand, there is some apprehension that very heavy obligations contracted in the course of the speculation may fall due next week, expecially in the foreign exchange market, and will require to be met or renewed.

There was much discussion of the problem of the December of the D

able effect on sentiment of the December charges for interest, which will go ber charges for interest, which will go out to the customers of stock exchange commission houses next week, and which, it is believed, will disclose a high average of carrying charges. Little attention was paid to the bank statement, which conformed pretty closely to expectations in the cash change. The heaviest lending by the banks is supposed to have been done toward the end of the week and thus would have end of the week and thus would have a diminished effect in the average changes for the week as a whole, Total sales of bonds, par value, \$1,-

A Touching Story

is the saving from death, of the baby girl of Geo. A. Eyler, Cumberland, Md. He writes: "At the age of 11 months, our little girl was in declining health, with serious Throat Trouble, and two physicians gave her up. We were almost in despair, when we resolved to try Dr. King's New Discovery for Consumption, Coughs and Colds. The first bottle gave relief; after taking four bottles she was cured, and is now in perfect health." Never falls to relieve and cure a cough or cold. At Z. C. M. Sellick, Sarah 245

World's Standard Reference Book on

Copper.

The miner needs the book for the facts it gives him about mines, mining and the metal.

The investor needs the book for the facts it gives him about Mining Investments and Copper Statistics. Hundreds of Swindling Companies are exposed in plain English.

Price is \$5 in buckram, with gilt top: \$7.50 in full library morocco. Will be sent fully prepaid, on approval, to any address ordered, and may be returned within a week of receipt if not found fully satisfactory.
